

**What is not for sale to wealthy Chinese on PEI?
Would Islanders allow local profiteers to Sell
Province House? After all, profiteers have
already enabled the sale of significant parts of the
Island and other parts of Canada. Few of our
legislators have objected!**

We must stop the PEI fire sale on Permanent Resident cards to wealthy non-Canadians. We must also stop unnecessary immigration that has led to housing unaffordability, particularly in Metro Toronto and Vancouver, but in other parts of Canada also. If not stopped, senseless immigration policies will also lead to the replacement of Canada's founding majority population. At present, not a single PEI MLA, or any other Canadian legislator, has produced a communal vision that will protect the heritage and well-being of Canadians and Confederation.

In 2017, Trudeau increased Canada's immigration intake to a suicidal 300,000+ per year. His irresponsible proclamation that Canada had room for all refugees created an ongoing, unprecedented migrant border crisis. PEI cannot rely on foolish Justin to protect its interests! Neither can the rest of Canada.

Diversity is not our strength. It is our disaster.

**DELIVER THIS MESSAGE TO P.E.I. LEGISLATORS and to
those in the ROC. : NO MORE SUICIDE !! PROTECT The Cradle of
Confederation and the rest of Confederation!**
